Kent,

I just spoke to Shawn. December would be a better month to have you guys collect a QA sample at Arkwood. That will give Shawn and Carlos time to get a work order to you and schedule laboratory space with the Houston lab.

Thanks,

Don Williams

Subject: Arkwood QA sampling

I just got a call from Oxford Consulting asking me if we could meet this week to collect a QA sample at Arkwood. As far as I know, we don't have a work order in place yet and the EPA Houston Lab hasn't been set up for a sample. I guess they sample the site once a month. Anyhow, I would be glad to get some one from Arkansas USGS to be out there for a QA sample, but as we discussed in our recent IAG meeting we have to have the work order in place.

Please let me know how you want to proceed on this.

Thanks.
